

Fokus: Redaktion zum Projektkonzept aus afrikanischer Sichtweise

1. Beitrag: Mr. Stephen Agbenyo, Ghana, Bewerber für den Aufbau einer NADEUM Zweigstelle, [request to change all references from wikipedia and to substitute them by references from other trusted and scientifically recognized sources](#), because the ACAPMUSSC concept is considered as a high-level document; Comment by NADEUM Vienna: dear Stephen, kindly share with us all substitute references on high level;
NADEUM Vienna: in der Startphase der Entwicklung des Projekts ist es notwendig zeit- und kostenintensiv zu arbeiten. Der Aufwand, sämtliche Referenzen aus wikipedia gegen andere Quellen zu tauschen kann derzeit von NADEUM nicht geleistet werden. Deshalb erwarten wir Empfehlungen von Stephen Agbenyo, mit genauen Hinweisen und elektronischen Kopien aller Ersatztexte.
Erklärung: wikipedia ist ein sehr pragmatisches Instrument, rasch Inhalte zu recherchieren und in Konzepte einzugliedern – somit ist es ein unentbehrliches Arbeitsinstrument, um rasch Projektziele zu formulieren und die Konzentration dann umso intensiver auf die Umsetzung des Projekts zu lenken! In diesem Meeting geht es zudem ausschließlich um die Inhalte des Konzepts, die zu authentisch afrikanischen durch die hier diskutierten Beiträge werden sollen. Es geht hier nicht um eine akademische Ausrichtung des Konzepts.

2. Beitrag: es herrscht Übereinkunft, dass das Programm bereits inklusive ab dem Kindergarten – **ab dem 3. Lebensjahr**, gemeinsam mit ihren Müttern - umgesetzt werden soll – das entspricht der 1. Stufe von ACAPMUSSC und ist somit bestätigt.

4. Request to add a **subtitle (Untertitel)** to the project title of ACAPMUSSC – *further education, pluralistische Bildung (holistische Bildung; ganzheitliche Bildung) - pluralistic education (holistic education)*
5. Mr. Denis Cheruiyot Mitei, NADEUM KENIA AFRICA, President; facing arid lands in Kenia, education is luxury, areas with no schools, lack of social amenities, hospitals, infrastructure; provide food to go to schools; change the ACAPMUSSC project document and add: **focus on arid and semiarid lands in (North-) Kenia!**

Comment from NADEUM: education is the key to turn arid lands into more fertile land;

6. Mr. Eli Kiprono Yebei, Secretary General, NADEUM KENIA AFRICA; points to be added to the project document regarding Kenia; high schools, technical schools, basic schools, and in addition; **basic skills training** in the frame of **additional 2 years polytechnical classes**,

Support to get a better job

Graduates of the programme are certified regarding their knowledge and practise of standard in all fields of basic training

7. Mr. Amodu Amugili Koroma, Chairman – CEO NADEUM Sierra Leone AFRICA

- **Corruptive leaders in Africa – challenge**
- **Depoliticize the education sector**, Entideologisierung aller Einrichtungen des Staates; das betrifft alle Ministerien, alle Bildungseinrichtungen, die gesamte Administration - sie muss frei vom Einfluss von Ideologien oder Radikalismen gemacht werden – die Bevölkerung muss von dieser Initiative profitieren! Die Bevölkerung muss freien Zugang zu Wissen und Bildung erhalten, um frei und eigenverantwortlich Handeln zu können – erst durch Wissen ist Handeln möglich; Wissen und Bildung müssen **open source** sein
- Es muss ein Konsens in Bezug auf Werte als gesellschaftliche Grundlage hergestellt werden – diese Ethik muss verpflichtend von allen Bürgern eingehalten werden!
- Förderung von Kernkompetenzen für alle Bürger:
 - **agricultural business**
 - **cyber security**
 - **internet skills**
 - Förderung ländlicher Gebiete: **ISP, Internet Security Provider**
Quelle: Google – Internet Service Provider

Certainly! Let's delve into the world of **Internet Service Providers (ISPs)** and their role in ensuring online security.

1. **ISP (Internet Service Provider):**

- An ISP, also known as an Internet Service Provider, is a company that provides internet services to individuals or businesses. These services include internet access via various technologies such as DSL, cable, or mobile networks.

- ISPs play a crucial role in connecting users to the internet, offering data transmission, domain hosting, and other related services.
2. **Security Measures Provided by ISPs:**
- While ISPs primarily focus on providing internet connectivity, they also implement certain security measures to protect their customers:
 - **Blocking Incoming Connections:** ISPs often block incoming connections on well-known ports (e.g., port 139, commonly used for Windows file sharing) to prevent unauthorized access.
 - **Spam and Malware Filtering:** ISPs filter spam, viruses, and other malware sent via email to safeguard users.
 - **Network Security:** Some ISPs offer additional security features, such as firewalls and intrusion detection systems, to protect against cyber threats.
 - **Traffic Monitoring:** ISPs monitor network traffic for suspicious activity and may take action if they detect malicious behavior.
 - **DNS Filtering:** ISPs can block access to malicious websites by filtering DNS requests.
3. **Examples of Austrian ISPs:**
- Here are some Austrian ISPs you might find interesting:
 - **Austria WebHosting:** An Austrian provider with over 22 years of experience, offering web hosting, WordPress hosting, and domain services.
 - **InterSSL:** Provides affordable SSL certificates for website owners and hosts.
 - **Red Bull MOBILE:** Offers mobile services with a sporty twist.
 - **Hutchison Drei Austria GmbH:** Known for unlimited plans.
 - **educom GmbH:** Provides discounted mobile and internet plans for students and their parents.
 - **spusu:** A brand of MASS Response Service GmbH.
 - **yesss!:** A brand of A1 Telekom Austria AG.
 - **HoT Telekom und Service GmbH:** A subsidiary of Ventocom GmbH.
 - **A1 Telekom Austria AG:** Offers mobile plans, internet, TV, and digital products.
 - **bob (A1 Telekom Austria AG):** Known for its competitive offerings.
4. **Additional Security Consulting:**
- If you're interested in comprehensive security solutions beyond what ISPs provide, consider consulting companies like **I. S. Pfeiffenberger GmbH**. [They offer security consulting across various domains, including IT infrastructure and building security¹](#).

Remember that while ISPs contribute to security, it's essential to take personal precautions as well, such as using strong passwords, keeping software updated, and being cautious online. Stay safe! 😊
